

Backend Developer w/ Node

ABOUT

Backend Developer with 4 years of experience. Proficient in Node.js, SQL, and Docker. Skilled in NestJS and Express.js for building efficient APIs. Passionate about crafting dynamic user interfaces using Angular, HTML, CSS, and JavaScript. Committed to delivering cutting-edge solutions and maintaining clean code practices.

EXPERIENCE

- Demonstrated expertise in Node.js ensuring code quality
- Ensured optimal performance of the central database and responsiveness to front-end requests.
- Managed and manipulated data in relational databases, making them an asset in developing data-driven applications.
- Streamlined the deployment process, ensuring applications ran consistently across different environments and scaled effortlessly.
- Built scalable and modular server-side applications, leveraging the power of Express.js and TypeScript for efficient development.

TECH STACK

- Node.js
- TypeScript
- SQL
- Docker
- NestJS
- Express.js
- Angular
- HTML
- CSS
- JavaScript

EMPLOYMENT HISTORY

Node.js Developer, Divante

February 2022 - Present

Currently, I am a Node.js Developer with substantial expertise in building dynamic web applications. I'm responsible for optimizing our web-based application performance, collaborating with our front-end application developers, designing back-end components, and integrating data storage and protection solutions.

Node.js Developer, Clearcode

January 2021 - February 2022

As a Node.js Developer I developed high-performance applications by writing testable, reusable and efficient code. I was also responsible for ensuring optimal performance of the central database.

Node.js Developer, Concise Software

May 2019 - August 2020

In this position I was constructing dynamic web applications with a focus on code quality and testing. Strong proficiency in different technologies allowed me to develop robust and scalable solutions.

Student Internship, Agencja Interaktywna Testin

December 2018 - February 2019

This internship provided practical exposure to software development processes, tools, and team collaboration, preparing me for future roles in the tech industry. It was a valuable opportunity to learn, grow, and enhance coding skills under the guidance of experienced professionals.

Student Internship, Ideo Sp.z o.o

October 2017 - December 2017

It provided valuable learning opportunities, mentorship, and a chance to build a professional network within the industry.

EDUCATION

Bachelor's degree in Information Technology, University of Information Technology and Management in Rzeszów

2015 - 2019

It was a rewarding experience, enhancing my technical skills and understanding of IT principles. Hands-on projects deepened my expertise in IT support and maintenance.
