

Kafka Developer

Summary

Certified Spark & Hadoop Developer (CCA175), Confluent Certified Kafka Developer (CCDAK) with 10 years of experience in implementing solutions of enterprise applications using Core Java, J2EE, RESTful services, Hibernate, Spring Framework(IOC), Servicemix ESB, Apache Camel, Apache Spark, Apache Sqoop, Apache Hive, HDFS, Kafka, Apache Cassandra, JQuery, Javascript, JUnit Testing Framework (Mockito, PowerMock, JMockit)

Career Summary

Senior Software Engineer, Luxoft

Dec 2017 - Present

- Working in the Analytics platform and support team who is responsible for the data pipeline from different sources to the Hadoop platform.
- Develop Spark jobs to ingest data from Oracle to HDFS and perform ETL to create a semantic layer for reporting.
- Create and schedule oozie workflows for Tableau reporting via ETL.

Senior Software Engineer, CIGNEX

Mar 2016 - Jul 2021

- Working as a Senior Software Engineer at Cignex in BigData Practice.

Senior Programmer, Brodos AG

Sep 2014 -
Feb 2016

- Working under Brodos offshore development centre associated with Silvertouch Technologies Ltd. This is the project which is managing complete server side backend with creation of OSGI and Rest Services for Apache Servicemix. We created several services, for example. Cassandra service, Oracle service, File Service, Scheduler Service. These all services are interconnected within one Servicemix ESB and communicate with each other to provide complete Point Of Sell solutions. For the ContentCard project, we are providing a platform to sell digital products which includes Software licence, mobile top-up recharge etc. For this purpose we integrated different API based on the client. For example, Microsoft Rest API, Nexway SOAP API. For project management, we followed SCRUM Agile methodology and we used JIRA to manage projects. For code quality management, we used Fisheye for code review and Sonar for quality assurance.

Senior Programmer, Silver Touch Technologies Ltd

Feb 2011 -
Aug 2014

- Working on J2EE with Hibernate 3.0, Struts 2.0, ZK framework 5.0, Oracle10g, MySql 5, Swing, I-Report 4.0.1, JavaFX, Apache Camel, Apache Servicemix, Apache Cassandra (NoSql DB), SOA Architecture, Agile Software Development Methodology with SCRUM, JUnit Test cases with testing frameworks Mockito, PowerMockit and JMockit

Education

Hemchandracharya North Gujarat University

2005-2009

Bachelor's in Computer Science

Certifications: Apache Cassandra 3.x Developer Associate Certification | Confluent Certified Kafka Developer

Skills

Tech: Big Data (Hadoop, HBase), Apache NIFI, Real-Time Big Data CEP, Java/J2ee

Languages

English: Full Professional
