
SENIOR ANDROID DEVELOPER

Profile

I am a passionate and hard working person. I love developing mobile applications, I am always eager to see results of my efforts in the form of working products. I am focused on quality. I enjoy exploring possibilities of new technologies so that I can see their integration into everyday work and life.

Professional experience (10+ years, 2011 - 2022)

Tech Lead / Senior Android Developer - Tapptic

January 2016 - Present (6 years)

- As a tech lead, I am responsible for development, architectural design and quality of our applications. I lead development processes from a technical perspective and coordinate efforts of developers.
- I have introduced multi-platform solutions into our tech stack (Kotlin Native and Flutter)
- As a senior developer, I'm responsible for development of mobile applications for our Clients in Sport, Media and Health industries. Over my 6+ years in the Company, I have developed and led development of several applications reaching millions of users.
- Tech stack: Android, Kotlin, Java, Kotlin Native, Flutter

Senior Android Developer / Contractor - Sii

January 2016 - December 2017

- Senior Android Developer - Sii contractor
- Outsourced to Tapptic, later transferred to Tapptic

Android developer / Freelancer - SuperVisor

October 2015 - March 2016 (Part time contract)

- I developed an in-house, B2B solution, using beacons, for presence control inside vehicles.
- Tech stack: Android

Android Developer / Contractor - Connectis (Outsourced to Blue Services)

July 2015 - December 2015 (Contract)

- I developed an Android banking application for one of Polish Banks. It handled most of day to day banking operations: transfers, basic account management, new product offers, simple messaging with customer support, etc
- Tech stack: Android

Android Developer - BetterSolutions

December 2014 - June 2015 (Contract)

- I was working on a Map & Navigation system for our B2B Customers.
- I enabled our Android application to connect to the truck's onboard computer and exchange information.
- Tech stack: Android

Tech stack:

- Kotlin & Java
- Android SDK
- Kotlin Native
- Flutter
- Swift
- Java EE (Spring boot, Hibernate, PostgreSQL)
- Git

Education:

Bachelor's degree in Computer Science,
Gdańsk University of Technology
