

Additional Information

I am an experienced developer with over 9 years of experience in software development. I have worked with a variety of frameworks including Symfony, Laravel, Yii2, CodeIgniter as well as CMS platforms such as WordPress, OpenCart and SocialEngine. My expertise includes back-end and front-end development and web development. I possess strong knowledge of object-oriented programming, RESTful web services, databases like MySQL, and MongoDB. I am a self-motivated person with excellent problem-solving skills and ability to learn new technologies quickly. I am proud of my ability to work well in a team and to deliver high-quality software solutions. With a deep understanding of web technologies, I have developed multiple web applications that are scalable and robust utilizing optimal coding standards. I have a passion for staying up-to-date with emerging web technologies, methodologies, and best practices that help me deliver cutting-edge solutions. I'm not afraid of overtime and working under high pressure, but I prefer a balanced and productive workflow.
