PROFILE

I am an ambitious person, creative, conscientious, transparent and committed to executing my duties, consistently striving for a designated purpose. I work close with my Customers and Partners, I am full of energy and enthusiasm, motivated to work towards continuous improvement of processes and performance of tasks undertaken to achieve professional and cost efficient success in delivery of projects and programs that I am responsible for. My advantage is the good organization of work, agile way of adapting to fast changing environments and requirements, ease of establishing personal contacts and ability to work independently as well as a team player. I am a leader and a member of the team, servant leadership is my way of approach to management. I can quickly make decisions and cope with unpredictable situations.
