Supply Chain Solutions Architect w HyLogic

Summary

I'm a passionate data scientist with strong statistical and quantitative background. I love challenges and I'm eager to learn new businesses and technologies.

During last few years I've also become a supply chain solutions architect where I'm still actively using data science knowledge. I plan to develop in this area unless life brings some unexpected opportunities.

I'm designing & developing robust process, automation flows and machine learning models. I like to understand processes end-to-end which helps me to cooperate effectively with business representatives.

Competencies: data science, machine learning, cloud computing, R, Tableau, predictive modelling, process automation, Rulex, supply chain systems.

Experience

HyLogic

5 years 8 months

Supply Chain Solutions Architect

July 2023 - Present (11 months)

Main responsibilities:

Supply chain automated processes end-to-end design including:

-> Data sourcing (ERP systems, DBs), analysis & flow design

-> Business logic mapping & transformation into programmable steps

-> Output integration with Supply Chain tools (Kinaxis, OMP etc.)

Process management

- > Knowledge flow within organization (internal communication, development standards & best practices gathering & execution, onboarding process design & execution)
- > Team development (technology life cycle strategy, career path design)

Supply chain process automation – design & development

- > Optimization models (both deterministic and stochastic)
- > Consulting & advisory
- > Maintenance (continuous improvement for high process agility)
- > Development in DEV/QA/PROD environment

Senior Supply Chain Systems Analyst

July 2020 - November 2023 (3 years 5 months)

Supply Chain Systems Analyst

October 2018 - July 2020 (1 year 10 months)

Main responsibilities:

1. Supply chain process automation -> end to end business & technical design, development, consulting.
2. Optimization models (deterministic and stochastic) - design & development.
3. Project management – maintenance & development in Agile environment.
4. Supply chain systems - architecture consulting, process design.
5. Team management.
6. Process management - good practices & developers standards, recruitment process design.

Tools:

1. Rulex
2. Simplement
3. SQL
4. Tableau
5. SAP

Mobile Reality

Data Science Leader

April 2017 - December 2023 (6 years 9 months)

Main responsibilities:

1. R-language expert
2. Tableau projects implementation
3. Data preparation and data analysis
4. BI Project Management
5. Predictive Modelling and Machine Learning
6. Requirements analysis and project planning

Tools:

1. R
2. Tableau
3. SQL

Elavon, Inc.

1 year 5 months

Data/BI Analyst

August 2017 - September 2018 (1 year 2 months)

Main responsibilities:

1. Data mining.
2. Searching for and preparing data for analyses.
3. Building predictive models.
4. Managing and monitoring predictive models.
5. Data ad hoc analyses for business use.

Tools:

1. R
2. SQL
3. MS Office

Junior Data Analyst

May 2017 - July 2017 (3 months)

Main responsibilities:

1. Building predictive models
2. Preparing data for modelling

3. Data analytics for business use

Tools:

1. R
2. SQL
3. MS Office

Merck Group

Data Analyst

October 2016 - April 2017 (7 months)

Main responsibilities:

1. Current analyses of sales data.
2. Sales support.
3. Data ad hoc analyses for business use.

Tools:

1. R
2. MS Office

T.E. Univcomp

IT Specialist

January 2013 - October 2016 (3 years 10 months)

- 1) Contact with clients
- 2) Logistics
- 3) IT voting service of general meeting of shareholders

Creative Minds Aneta Semeniuk

Manager

August 2014 - March 2016 (1 year 8 months)

- 1) Current management of the company
- 2) Contact with clients
- 3) Human resources management
- 4) Negotiation with subcontractors
- 5) Planning of marketing activities

REMONTOWA S.A.

Intern

July 2014 - August 2014 (2 months)

I was an intern in project management department. My main duties were associated with support for project managers. Most of my responsibilities included resource planning and data analysis. During my internship I was acquainted with the procedures and production process in shipyard.

Robomaticon - Mobile Robots Competition
Project Manager "Robomaticon 2013"
June 2012 - March 2013 (10 months)

WOPR Województwa Pomorskiego
Lifeguard
July 2010 - August 2010 (2 months)
Białogóra

Education

SGH Warsaw School of Economics
Master's Degree, Big Data · (2016 - 2018)

Warsaw University of Technology
Bachelor's degree, Mechatronics, Robotics, and Automation
Engineering · (2011 - 2017)

Warsaw School of Economics
Bachelor's Degree, Quantitative methods in economics and information
systems · (2011 - 2015)
