

## Summary

Certified Microsoft developer, that loves new technologies and Modern UI.

Specialize in UI development for Windows Desktop/Tablets using C#.

Has rich experience in Enterprise development as well as eCommerce and Healthcare.

## Experience

### Team Lead

Aura

Mar 2019 - Present (2 years 8 months +)

Windows desktop (WPF) VPN app development

- Desktop application UI development
- Commit UI/UX decisions, full redesign
- Custom UI controls development
- Custom UI styles development
- Business logic and services development
- Development of most popular VPN solution for Windows

Technologies used: C#, .XAML, NET 4.8, WPF, WCF, Prism, OpenVPN, Hydra protocol

### Engineering Lead

Star

Aug 2015 - Mar 2019 (3 years 8 months)

Windows 10 Universal app (UWP) development

- Application architecture development
- Custom UI controls development
- Custom UI styles development
- Cross-platform development (PCL for Xamarin)
- Front-end development of the application

Windows 10 Desktop app (WPF) development

- Cross-platform architecture development
- Porting Windows 10 (UWP) controls to WPF
- Porting Windows 10 (UWP) functionality to WPF

Android mobile app (Xamarin, C#)

- Cross-platform business logic development
- OAuth 2.0 authentication, SSO (single sign on)
- Global error handling, Logging, Google analytics
- Input validation, implementing business rules

Office 365 plugin development (Angular, JS, Android)

- Application architecture development
- Custom CSS styles development
- Front-end development of the plugin

React Native mobile app (React, ReactNative, iOS, Android)

- Application architecture development
- Cross-platform application development
- Custom styles and components development
- Authentication, SSO (single sign on) implementation
- Push notifications and live update implementation

Full Stack web app development (Vue, JS, GraphQL, Node.js)

- Frontend application architecture development
- Custom styles and components development
- Authentication, SSO (single sign on) implementation
- GraphQL Prisma server mutations, query development
- Node.js server side application business logic implementation

Technologies used: C#, .XAML, NET 4.6, Windows 10 Universal App (UWP), WPF, Prism, Telerik

Technologies used: Xamarin for Android, PCL (Xamarin/UWP)

Technologies used: Angular, JavaScript, ES5, HTML5, CSS, Material Design

Technologies used: React, ReactNative, Redux, JavaScript, ES6, CSS

Technologies used: Vue, Vuex, Stylus, Node.js, GraphQL, PostgreSQL, Prisma, JavaScript, ES6

## Senior Software Engineer

Livatek

Feb 2014 - Jul 2015 (1 year 6 months)

Windows 8.1 (Metro) app development

- Application architecture development
- Custom UI controls development
- Custom UI styles development
- Front-end development of the system
- Back-end development (with two way communication)
- Healthcare and real-time monitoring charts implementation

Technologies used: C#, XAML, .NET 4.5.1, Windows 8.1 Metro App (WinRT), WCF, Prism, Telerik

## Senior Software Engineer

EPAM Systems

Apr 2013 - Feb 2014 (11 months)

Windows 8.0 (Metro) app development

- Application architecture development
- Custom UI controls development
- Custom UI styles development
- Front-end development of the system
- Desktop/Tablet UI framework development

Technologies used: C#, XAML, .NET 4.5, WPF, Windows 8 Metro App (WinRT), Prism, Telerik

## Middle Software Engineer

Sep 2011 - Mar 2013 (1 year 7 months)

Integrated system for statistical data processing (Major)

- Kernel and core app development, refactoring
- Custom UI controls development
- Implementing web services and server-side business logic
- Front-end and back-end development of the system
- Import and export subsystems development

Technologies used: C#, .NET 4.0, WPF, WCF, LINQ to SQL, BLToolkit, ADO.NET, Prism, XML, Sybase IQ, Sybase ASE, Sybase ASA

## Middle Software Engineer

Lime Systems

Sep 2009 - Aug 2011 (2 years)

Automated banking system (Major)

- Kernel and core development, refactoring
- Implementing server-side business logic
- Database development (design objects, stored procedures, triggers)
- Developing import/export subsystem
- Developing credit cards management subsystem

Coordination and team development (Minor)

- Code review
- Release management

Technologies used: C#, .NET 2.0, ADO.NET, XML, WinForms, WebServices, Remoting, IIS, SQL Server 2008 R2, Oracle, Firebird.

## Junior Software Engineer

Lime Systems

Sep 2008 - Aug 2009 (1 year)

Automated banking system (Major)

- UI development using WinForms
- Implementing server side business logic
- Database development (stored procedures, views)

Technologies used: C#, .NET 2.0, ADO.NET, XML, WinForms, Remoting, IIS, SQL Server 2005.

## Education

Master's Degree, Computer Science

2005 - 2011

## Licenses & Certifications

 **MCSD: App Builder** - Microsoft

 **MCSD: Universal Windows Platform** - Microsoft  
|

 **MCPS: Windows Store Apps Using C#** - Microsoft

 **MCPS: Microsoft Certified Professional** - Microsoft

 **MS: Programming in C#** - Microsoft

 **MCPD: Windows Phone Developer** - Microsoft

 **MCTS: Silverlight 4, Development** - Microsoft

 **MCTS: .NET Framework 4, Data Access** - Microsoft

 **MCTS: .NET Framework 4, Windows Applications** - Microsoft

## **Skills**

C# • .NET • XAML • Windows 10 Universal App • WPF • Solution Architecture • WCF •  
Microsoft SQL Server • Entity Framework
