

SENIOR SOFTWARE DEVELOPER

Work experience

- 10.2020 – to date** **Senior Software Developer – EY GDS**
- Developing ASP.Net 5 micro services
 - Setting up from scratch .Net solution for the project
 - Developing ETL processes on Azure Data Factory
 - Performing DevOps activities (creating CI/CD pipelines using Azure DevOps, configuring AKS)
 - Performing standard development activities (implementing, unit testing new features, bug fixing, writing documentation)
- 07.2018 – 09.2020** **Senior Software Developer – Objectivity**
- Leading part of development team (1 - 2 members)
 - Communicating with client – helping with gathering requirements and presenting demo after sprint
 - Preparing and implementing Chatbot trainings
 - Performing DevOps activities (creating CI/CD pipelines using Azure DevOps, creating and provisioning infrastructure on Azure cloud)
 - Performing standard development activities (implementing, unit testing new features, bug fixing, writing documentation)
- 03.2017 – 06.2018** **Software Developer - Objectivity**
- Developing ASP.Net Core applications on Azure Cloud
 - Developing Angular 5 applications with ASP.Net Web API backend
 - Designing and implementing new features for Objectivity's Chatbots
- 10.2016 – 02.2017** **Wroclaw .Net Team Lead – Credit Suisse Poland Sp. z o. o.**
- Distributing the work coming the Wroclaw .NET Team way among the Wroclaw .NET developers
 - Defining and executing the Road Map for the .NET components in the team space
 - Being responsible for .NET components' stability and performance
- 12.2012 – 09.2016** **C# Developer - Credit Suisse Poland Sp. z o. o.**
- Designing Web API in .NET
 - Designing new screens for GUI application
 - Developing and maintaining .NET applications
 - Testing (Unit, Integration)
 - Setting up Continues Integration flow using TeamCity
- 02.2010-05.2011** **PHP Developer - Marshal's Office of Lower Silesian Province**
- Implementing modules to intranet applications using PHP and Java SE
 - Preparing test scenarios
 - Preparing and generating reports using MySQL

Selected projects

- **DigitalPayroll:** Application in microservices architecture responsible for processing input files from the client and preparing reports
 - **Responsibility:** Choosing technology stack, Implementation, Testing,
 - **Technologies:** C# 9.0, .Net 5, Azure Service Bus, RabbitMQ, Kubernetes, Azure DevOps
- **PowerBi:** Pipeline for creating reports on PowerBi using Azure features – from fetching data via Logic Apps to present them on Microsoft Power Bi Dashboard
 - **Responsibility:** implementation of CI/CD pipeline on Azure DevOps using ARM templates and Azure CLI, design Azure Data Factory data transform pipeline.
 - **Technologies:** Azure Logic Apps, Azure Data Factory, Azure CLI, Azure VNet, ARM Templates, Azure DevOps
- **Booker.ly:** PWA application that allows you to immediately book a room directly from your phone or computer
 - **Responsibility:** Implementation, testing.
 - **Technologies:** Angular 5, ASP.Net Core 2.1, Entity Framework Core, Azure AD, Azure Web App
- **Signal:** Web API Chatbot customer facing application on Facebook which helps children with teeth brushing.
 - **Responsibility:** implementation, testing, Facebook integration, creating CI/CD on Teamcity
 - **Technologies:** ASP.Net Web API II, .Net 4.6.1, Microsoft Bot Framework, Azure Cosmos DB, Cake, Azure Functions, TeamCity
- **LASER:** REST Web API application, which allows to perform other teams' calculations (written in .NET) and upload their results into database.
 - **Responsibility:** designing, implementation, integration, testing, setting up continues integration and deployment
 - **Technologies:** ASP.NET Web API II, .Net 4.5, MSMQ, NUnit, Ninject, SVN, NuGet, TeamCity

Certificates

07.2021 – Microsoft Certified: Azure Solutions Architect Expert

10.2019 – Microsoft Certified: Azure Developer Associate

Additional qualifications

Good knowledge:

- .NET 3.5-5 (C#), ASP.NET Core 2.1 – ASP.Net 5, WPF, WinForms, SQL (SQL Server), Entity Framework Core
- Azure Cloud
- Docker
- Kubernetes (AKS)
- DDD, OOP, REST, Software Design Patterns
- Visual Studio (+ R#), NuGet
- Microsoft Bot Framework, Luis.ai
- Angular 2+
- Git, SVN
- Agile Methodology

Basic knowledge:

- Event Storming
- WCF, PHP, MySQL, JavaScript, CSS

Languages:

- Polish – native speaker
- English – professional proficiency

Education

2013-2015	Wroclaw University of Technology, Information technology – database systems, Master of Science master's thesis: Developing web application based on ASP.NET Web API II
2009-2012	“Copernicus Wroclaw”, Information technology – software engineering, Bachelor of Science

Personal Interests

Playing squash, creating software related with computer games

Wyrażam zgodę na przetwarzanie moich danych osobowych zawartych w mojej ofercie pracy dla potrzeb niezbędnych do realizacji procesu rekrutacji zgodnie z ustawą z dnia 29 sierpnia 1997 r. o ochronie danych osobowych (Dz. U. z 2002 r. Nr 101, poz. 926, ze zm.)
