

## Education

Warsaw University of Technology, Faculty of Electronics and Information Technology, specialization: Management of Telecommunication Networks and Services, Engineer's (2006) and Master of Science (2013) degree.

## Profile

Experienced Tech and Team Lead, Big Data architect and solution designer with strong background in agile management methodologies. I'm committed team player, have wide range of interests in new technologies like IoT and renewable energy sources.

## Career history

### **Big Data Application Product Owner, DXC Technology, (2021-)**

- Product Owner, Tech and team lead for application development team (Spark, Scala, Python, MapR, OCP)

### **Technical Product Manager, DXC Technology, (2020-2021)**

- DXC Robotic Drive Core Platform Product Owner
- Responsible for Data (MapR) and Compute (OCP) platforms, used for RD application
- Team Lead of highly skilled self organized Professionals
- Member of RD-on-AWS team, moving Robotic Drive applications into AWS

### **Big Data Architect, DXC Technology, (2019-2020)**

- Technology lead for edge computing solutions, high data throughput data ingestion
- Experienced in projects delivery in Europe, US and China

### **Big Data Architect, Excelian-Luxoft Financial Services Switzerland, (2017-2018)**

- Consultant in BigData project for Chief Compliance & Regulatory Office in Credit-Suisse.
- Responsible for overall architecture for BigData Hadoop solution.
- Security focused designing of new platform features.

### **Big Data & Data Science Chief Specialist, T-Mobile Poland, (2016 – 2017)**

- Change manager: design, develop environment for analytics based on Hadoop.
- BigData monetization, building analytic data models. I closely cooperate with Business Development team and provide them deep insights from BigData valuable to B2B customers.
- Member of Big Data Task Force, where we assess state of the art BigData tools,
- Architect and analyst in project introducing Palantir solution into organization.

### **Senior Services Performance Management Specialist, T-Mobile Poland, (2013 – 2016)**

- Certified Scrum Master, I successfully implemented SCRUM in my team and we were working according to this methodology for over 1,5 year. I'm coaching my organization in agile methodologies.
- Design secure service performance monitoring tools on internal customers' requests.

### **Data Performance Specialist, Polkomtel, (2007 – 2013)**

- Data Analyst: deep knowledge of SQL, prepare KPIs evaluating network and services performance quality.
- Project Team Leader with strong practical knowledge of agile software development frameworks (Scrum).

### **Network Management Center Engineer, Polkomtel, (2006 – 2007)**

- Supervision of backbone transmission network (IP, SDH, ATM).

## Trainings and Certificates

AWS Academy Cloud Architecting Graduate (2021), Goethe-Zertifikat B2 (2016), Professional Scrum Master (2014), UML2 (2011), PL/SQL (2010), ITIL V3 Foundation Certificate (2010), Oracle Database 10g: Administration Workshop I and Administration Workshop II (2009), Project Management based on PMBOK (2009), RH300 RHCE Rapid Track Course (2007), Red Hat Certified Technician (2007), LCCI English for Business 3rd Level Certificate (2006), NLP Master Practitioner (2006), Certificate in Advanced English (2005)

## Languages

Polish: native, English: fluent, German: upper-intermediate

## Interests and hobbies

Sailing, traveling, IoT and electronics, I've built own home automation solution based on open-source
