---

## Опыт работы

### Freelance

Mobile Application Developer (Ionic, FlutterFlow)

сентября 2018 - Present (5 лет 10 месяцев)

Ukraine

As a mobile developer, I create mobile applications using the Ionic framework or FlutterFlow. My responsibilities as a freelancer include:

1. Drawing up detailed technical specifications based on the customer's needs
2. Creating a user interface design for an application in Figma
3. Developing an API based on Node.js + Mongoose and hosting it, conducting tests (using JavaScript)
4. Creating a clickable prototype of the application and testing of the interface on live devices (using CSS, HTML and typescript or FlutterFlow)
5. Implementation of the application functionality using various plugins and third-party tools (for example, Geolocation, In-App Purchase, OneSignal and others).
6. Conducting tests and publishing the application in stores, transferring the source code to the customer.
