Software Engineer

PROFILE

Experienced software engineer with over 7 years of commercial experience working in different technologies. I am a modest, hardworking, tolerant, and true team player. Over the years, I have come to understand that the greatest values in problem-solving are responsiveness, communication, and the absence of phrases like "it's impossible" and so on.

In my spare time, I work on implementing smart contracts with Solidity and Web 3.

EMPLOYMENT HISTORY

May 2019 — Present

Senior Full Stack Developer, Ergo Digital IT

Remote

Projects:

- Calculators for insurance brokers
- Internal platform for analyzing sales data and customer needs.
