|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| 07.2021 -
till now | T-Mobile Poland
DevOps <ul style="list-style-type: none">• Preparing kubernetes development• Hardening | |
| 03.2021 -
07.2021 | Roche (via Billennium)
DevOps Expert <ul style="list-style-type: none">• Ansible• Gitlab• Docker• Powershell | |
| 06.2019 -
02.2021 | mBank S.A. (via Billennium)
DevOps Engineer <ul style="list-style-type: none">• Kubernetes consultant• Developer's first help• Admin's supporter• prepared VM autodeployment (based on Openstack)• automatization based on Ansible, git and TeamCity• prepared T-SQL scripts for Microsoft SQL automatization• global and centralized cleanup system for Linux and Windows servers• prepared department's monitoring system (Grafana, InfluxDB, Prometheus) | Warsaw |
| 11.2018 -
05.2019 | NVT Sp. z o.o.
DevOps Engineer <ul style="list-style-type: none">• Prepare and integrate automatization processes• Full integration Openstack with Kubernetes on bare-metal servers• Prepared and implement full projects automatization based on git, Jenkins and Kubernetes | Warsaw,
Poland |
| 11.2017 -
10.2018 | NVT Sp. z o.o.
System and Network Administator <ul style="list-style-type: none">• Server administration (CentOS)• Networks administration and related devices (Cisco 56xx, 43xx + firewall based on Linux)• Server administration: frontend (Apache2, nginx, haproxy), backend (Wildfly), queue (RabbitMQ), database (PostgreSQL), applications.• Task automation (python, bash) | Warsaw |

	<ul style="list-style-type: none"> • System and processes automation (ansible) • Internal and external customer care • Tour of duty (24/7) • Create and administrate HA private cloud solution - Kubernetes • Implementation self-hosted file storage - Nextcloud • Creation of internal rest API for developers for Atlassian Stride • Improvement of existing monitoring services (Nagios -> Icinga2+Grafana+Graphite with Observium) 	
02.2016 - 11.2017	<p>NVT Sp. z o.o.</p> <p>IT Administrator</p> <ul style="list-style-type: none"> • Server administration (Ubuntu, CentOS), desktop (Fedora, CentOS, Ubuntu) and mobile systems (Android) • Networks administration (VLAN, VPN, iptables) and related devices (Cisco) • Installation and administration of frontend (Apache2), backend (JBoss / Wildfly), queue (RabbitMQ, ActiveMQ), database (PostgreSQL), monitoring (Nagios) servers, applications, and the final product (eg. Muzodajnia.pl) • Task automation (python, bash) • Introduction of new solutions (ansible, FreeIPA) • Improvement of existing services (Wowza) • Internal and external customer care • Tour of duty (24/7) 	Warsaw
11.2015 - 01.2016	<p>Ailleron SA</p> <p>Junior IT monitor specialist</p> <ul style="list-style-type: none"> • Verification, functional check and repair system integration (TIBCO) • Control the flow of information between departments / companies • Task automation 	Warsaw
05.2015 - 11.2015	<p>Vistra Corporate Services Sp. z o.o.</p> <p>Junior IT Specialist</p> <ul style="list-style-type: none"> • Linux administrator (Ubuntu) • Internal Helpdesk • Cooperation with major IT support team Vistra Group (HongKong, China), local telephone provider (VoIP), IT companies in Central and Eastern Europe • Improving automation systems 	Warsaw
02.2015 - 2015	<p>DKMS Poland (Delete Blood Cancer Poland)</p> <p>Junior IT assistant</p> <ul style="list-style-type: none"> • Internal local HelpDesk • Software Translation • Contact with outside companies 	Warsaw
02.2014 - 06.2015	<p>Military University of Technology</p> <p>Web TV administator</p> <ul style="list-style-type: none"> • Administration Server (Ubuntu / Debian) • Development of a website (apache2, MySQL, PHP, jQuery) • Contacting with the students government 	Warsaw

EDUCATION

10.2012 - **Military University of Technology** Warsaw
06.2015

- Faculty: Electronics
- Major: Power engineering
- Specialization: Electropower engineering
- Full time studies

ACHIEVEMENTS

11.2015 **The construction of smart power generator**
Intelligent generator - physical generators as an alternate electric energy source in the absence of electrical power supply from the power line. Controlled remotely by Web browser.

05.2017 **Creation intelligent system for GPS tracking based on SMS**
System with full backend API written in Python (flask) and frontend based on Angular2

10.2014 **Network TV in MUT campus**
The creation of the television network for students living in dorms (over 2400 people), using LAN.

TRAININGS

05.2018 **AWS architect**
Prepared by: chmurowisko.pl

10.2016 **Oracle Database SQL Expert**

CERTIFICATES AND LICENSES

CCNA

05.2018 GPRD specialist (TUV)

02.2015 Operation of up to 1 kV (SEP certification)

SKILLS

Administration: Linux (deb/rpm), Handling databases (SQL + noSQL), Kubernetes (baremetal solutions), Java (Wildfly, Tomcat), Zimbra, Active Directory

Programming / scripting: Python, BASH / Shell, Ansible, Powershell, T-SQL

Dev tools: git

Networking: VPN (IPsec or openvpn)

Network tools: iptables, GNS3, Wireshark

Methodology: CI/CD based on Jenkins, CI/CD based on TeamCity, CI/CD based on Gitlab

Automatization: Jenkins, TeamCity, Terraform, Vagrant, Gitlab

Clouds: Azure/AWS

Monitoring: InfluxDB, Grafana, Icinga2 / nagios, Prometheus

LANGUAGES

Polish: mother tongue

English: advanced

ADDITIONAL INFO

Containerisation and network lover.

I'm looking for opportunities to develop myself in kubernetes clusters, but not like "typical IT engineer" nowadays but full solutions bottom up, on expert level - even start study Golang to understand what really happens inside. CKA will be passed soon and if I will have time I would like to pass more exams to challenge myself. If I'll pass my written goals I would like to start studying sth connected with management, probably Big Data Management - I really need to understand how to guide people in suitable way.

Overthought I WANT to work in international company - daily english is must have. Have to change my poor polish mindset because of Cambridge's C1 level exam.

HOBBY

Swimming and motorcycles (mostly adventure models), mototrips

Wyrażam zgodę na przetwarzanie moich danych osobowych dla potrzeb niezbędnych do realizacji procesu rekrutacji (zgodnie z Ustawą z dnia 10.05.2018 roku o Ochronie Danych Osobowych, Dz. U. 2018 r. poz. 1000).
