

Highly skilled full-stack software developer. With several years of experience, I have worked with top-tier software companies such as: Banks, Ecommerces, CRM and others across several countries in Latin America and the United States. Throughout my career, I have acquired proficiency in a wide range of cutting-edge technologies, including React, Angular, NodeJS, C++, PostgreSQL, MongoDB, and many more. I am constantly looking for new challenges to further enhance my skills and experience in the rapidly evolving software development industry.

WORK EXPERIENCE

Stefanini LATAM
Frontend Developer

Brazil (Remote, Hiring by project)
November 2022 – Present

- Developed user interfaces in the FrontEnd using Angular and React for Banco Agrícola in El Salvador, resulting in a successful project completion with no major issues reported by the client.
- Conducted thorough code reviews and applied best software practices, resulting in high-quality code and improved development efficiency. This contributed to a 25% decrease in the number of bugs reported by the client during the testing phase.
- Conducted performance reviews and functional testing, ensuring that the software met the client's requirements and expectations. This resulted in a 90% satisfaction rate from the client and a 10% increase in the project's profitability.
- Designed suitable cloud architecture/migration proposals per application.

Techstack: Angular 12, Typescript, Java 16, Spring Boot, React 17, Git, SonarQube.

Skills: Scrum, Agile, Leader, version control systems, problem-solving, UI/UX Design, Rest.

GoMobile
Full Stack Developer

Colombia (Remote, Hiring by project)
March 2022 – November 2022

- Worked for Banco GYT Guatemala, contributing to the development of a new platform for customers to perform various banking processes.
- Conducted thorough testing and debugging to ensure the platform's functionality and performance met the client's requirements, resulting in a 95% satisfaction rate from the bank's stakeholders.
- Collaborated with the team and participated in code reviews, applying best software development practices to improve code quality and efficiency, leading to a 20% decrease in bugs reported during the testing phase.

Techstack: React 16, Angular 12, C++, Nodejs, Express, Redis, MongoDB, SQL Server, Redux, TypeScript, Bootstrap, Material-UI, GraphQL.

Skills: Scrum, Agile, Leader, database management, version control systems, problem-solving, Rest.

Waia Network
Full Stack Developer

Ecuador (Remote, Hiring by project)
January 2020 – February 2021

- Successfully worked remotely for multiple clients in Latam and USA, resulting in a 95% satisfaction rate from clients due to timely delivery and high-quality work.
- Utilized best practices in software development to ensure optimal performance, scalability, and reliability of the applications, leading to a 30% increase in the number of satisfied end-users.
- Conducted thorough testing and debugging to ensure the solutions were bug-free and met the client's specifications, resulting in a 40% reduction in post-release support requests.

Techstack: React, Angular, Node, Express, Ionic, MongoDB, Python, Postgresql, Git.

Skills: Scrum, Agile, Leader, database management, version control systems, problem-solving, Rest, Jira.

Xpand Solutions
Full Stack Developer

Mexico (Remote, Hiring by project)
