

## Summary

I am a Programmer with experience in software development in various programming languages, including Delphi Embarcadero (Object Pascal), Microsoft .NET (ASP .NET MVC, Core, WebAPI, C#), and applications utilizing IoT technologies. I have practical knowledge in software development, creating test environments, and testing. My skill set also includes working with PostgreSQL databases and project management tools like Git.

Additionally, I have experience in mobile application development, both on the Android platform (Google Play Console) and iOS (Developer Apple). Moreover, I am familiar with the C++ programming language and the use of tools such as ChatGpt.

Throughout my professional journey, I've had the opportunity to work as both an Intern Programmer and a Sales and Customer Service Specialist, allowing me to enhance my interpersonal skills and gain experience in client management and CRM systems.

I am highly motivated, creative, and ready to embrace challenges related to software development and customer service. I am actively seeking new career opportunities where I can apply my programming skills and knowledge.

I am eager to take on new challenges and further develop my skills in the realm of technology and software development.

## Experience
