## ABOUT ME

I am an analytics expert with consulting experience, currently working in an RTLS tech-startup. I am passionate about optimising processes and finding solutions based on facts and targeted analysis. I have developed unique set of skills that allows me to be efficient in a value delivery - combining analytical capabilities, client facing experience and ability to manage teams and projects

## EXPERIENCE

### Indoorway

Real-Time Location System (RTLS) technology company  
**Customer Success Department**

**Analytics Lead - 02.2022 - Now**

I took over a role as Analytics Lead in rapidly growing IoT technology company that engineers and develops Real-Time Location System for indoor applications. I create an environment for success by merging big data, Industry 4.0 technology and deep business knowledge.

Key Successes:

- **5 out of 7 biggest clients decided to extend analytical contracts**
- Designed and implemented process analyses and optimisation strategies that **led to 3-10% OEE improvement**, largely increasing production capacities

Main responsibilities:

- Managing analytical projects, including:
  - Developing data reports in Tableau and PowerBi
  - Engaging client and building up a joint project team
  - Managing diverse groups of specialists among project teams
  - Setting projects strategies, analytical goals, success indicators and roadmaps
  - Gathering and processing client data using Python and Power Query
  - Solving advanced analytical problems
- Developing analytical capabilities for location analytics:
  - Creating algorithms that increase location accuracy
  - Shaping approach for location analytics for different factory types, industries and asset types

### McKinsey & Company

Management consulting company

**Expert Consulting - Supply Chain & Manufacturing Department**

**Knowledge Consultant - 03.2019 - 03.2021**

My role focused on project management and expert counseling in a field of Supply Chain optimisation. In addition I was product owner of proprietary, in-house developed transportation network modeling tool. I was involved in more than 10 large SCM projects

Key Success:

- I was a key expert of a team, that run transportation services tender for one of the largest aluminium producing company. **The european-wide tender resulted in 10% transportation costs reduction (which translates to 1.6 m EUR annually)**

## SKILLS

- **Organisational / managerial skills:**  
Strong project management skills, Work organization and time management skills, Diligence, Conscientiousness, Self-discipline, Motivation
- **Communication skills:**  
Very good at creating relations with colleagues, clients & contractors. Written & oral communication skills, including good presenting skills.

Main responsibilities:

- Tender management and analytical support, covering all steps of a large scale logistics projects (EUR 10 Million up)
- Managing a team of local SCM managers, research analysts and data analysts
- Data collection & current state assessment
- Supporting analytics including Clean-Sheet modeling
- Synthesis of tender approach and strategy
- Development of tender documentation & communication
- Tender workshop preparation and execution
- Suppliers negotiations preparation,
- Implementation planning & tracking

### **Knowledge Analyst - 06.2018 - 03.2019**

As Knowledge Analyst I focused on providing end-to-end analytical support for multiple logistics focused projects (for large variety of industries operating on 6 continents)

Main responsibilities:

- Supporting number of core client engagement teams:
  - Strategic Logistics counseling (working directly with client's department heads.)
  - data analyses for various logistics initiatives
  - creating recommendations for transportation transformation projects
- Improving analytical capabilities of existing tools
- Creating new data analytics instruments (i.e. supply chain network designer).
- Codifying my knowledge
- Providing logistics trainings for colleagues and clients

**Data Analyst - 05.2017 - 06.2018**

**Junior Data Analyst - 12.2016 - 05.2017**

## **United Parcel Service**

Global shipping & Logistics Company

**Process Support- Brokerage Department**

**Freight Forwarding Specialist - 04.2016 - 09.2016**

**Trade Management Analyst - 10.2013 - 04.2016**

## EDUCATION

### **Management (Masters level)**

2015 - 2016 Wrocław University of Technology; School of Computer Science and Management

2015 - 2016 Università Carlo Cattaneo - LIUC, School of Economics and Management

### **Biotechnology (Bachelors level, graduated as engineer with 4.5/5 grade)**

2009 - 2015 Wrocław University of Technology, School of Chemistry

2011 - 2012 University of The West of Scotland, School of Science
