

EDUCATION

Master's Degree in Computer Science

2005 — 2011

- Adam Mickiewicz University, Faculty of Mathematics and Computer Science
Specialization: Information Technology

EXPERIENCE

AEM DevOps Lead, ERGO Digital

01.2022 — currently

- Leading team of system engineers supporting projects from AEM perspective and various other web application systems. Providing guidance and strategy consulting for architecture design and implementation teams. Defining multi-year roadmap for DevOps team and making sure milestones are reached on time.

Principal System Engineer/Tech Lead, Wunderman Thompson/Cognifide

07.2017 — 01.2022

- Defining continuous delivery processes for globally spread development teams in multiple AEM projects. Involvement in both business and architecture design in all phases of projects. Playing both backend and client facing roles during solution definition. Introduction and implementation of DevOps practices inside the company and in its projects.

Senior Systems Engineer, Cognifide

07.2015 — 07.2017

- Designing infrastructure side of microservice approach to Java applications company-wide. Successful deployments of first microservice based projects in company. Direct cooperation with international clients during discovery, budgeting and design phases of projects. Defining infrastructure automation strategy for current and future projects.

Systems Engineer, Cognifide

02.2014 — 07.2015

- Design/consultancy and deployment of systems based on Java applications (Adobe CQ/AEM, Tomcat etc.). Infrastructure consultancy for global clients. Development and implementation of automation in company's processes (Chef). Direct involvement in continuous integration and delivery processes.

IT Administrator, Analyx

07.2012 — 02.2014

- Planning, implementation and maintenance of Microsoft systems (Office365, AD, WSUS, Exchange, DNS, SQL, license and security management etc.), Cisco based network and others (server hardware maintenance). Administration of web application farms based on .NET. Cooperation with international development teams.

Windows Administrator, Centuria

12.2009 — 07.2012

- Installation, configuration and maintenance of Windows Server, SQL Server, Exchange, HP and IBM BladeCenters. Administration of web application farms based on .NET.
