## Educa tion

10.2011 - 06.2016

**Silesia University in Sosnowiec**

Applied linguistics French and English, specialization: translation

---

## Tech Skills

Golang - 2 years of experience/junior Kubernetes - 5 years of experience AWS - 5 years of experience Azure - 2 years of experience Infrastructure as a Code - 5 years of experience, mostly with Terraform but had exposure to Cloudformation and ARM as well CI/CD - 6 years of experience with various solutions (Spinnaker, Jenkins, Gitlab, TeamCity, Azure Devops) Monitoring - 6 years of experience with various solutions (Grafana, Prometheus, ELK, Cloudwatch, Datadog) Bash and Python - several years of scripting small utilities Linux - proficient with command line, 3 years of experience as an IT support Ansible - 2 years of experience OpenShift - 2 years of experience GitOps - 3 years of experience (Flux, ArgoCD)

## Experience

11.2023 - present **Orcan Intelligence** Senior DevOps Engineer Working as a deployment specialist on an EU project in on-prem environment (Ansible, Openshift, Artifactory, Kubernetes, Helm)

---

## La nguages

Polish - native

French - proficient

English - proficient

German - basic conversational

Norwegian - basic

## Experience

09.2022 - 10.2023

### **J-labs**

Principal DevOps Engineer Working for big scandinavian corporation. Creating Azure landing zones, creating and managing Azure AKS clusters, spreading Infrastructure as a Code Approach (Terraform, ARM), cultivating GitOps culture (ArgoCD + Azure DevOps) Creating CI/CD pipelines and onboarding developers to container world Creating monitoring and alerting strategies (Prometheus, Grafana, ELK stack)

09.2021 - 08.2022

### **Bitpanda**

DevSecOps Engineer

Being a DevOps and cloud-native secure deployment enabler

Microservices and container orchestration with AWS EKS

Developer support and implementing best CI/CD practices

Infrastructure as a Code style management of multiple AWS account with Terraform

Creation and management of security baselines and guidelines

Working on monitoring solutions (Datadog)

06.2021 - 08.2021

### **Hyland**

DevOps Engineer 3

Cloud management and architecturing (AWS, Rancher)

Maintenance of contenerized applications and their pipelines (GitHub Actions, Travis CI) IaC (Terraform)

Scripting (Bash)

08.2019 - 05.2021

### **Jamf Software**

DevOps Engineer II

Cloud management and architecture (AWS, GCP)

Kubernetes clusters (50+) administration, automation and maintenance

IaC (Terraform and CloudFormation)

Managing CI/CD pipelines (Concourse, Jenkins, Spinnaker)

Scripting and writing internal tools (Python, Bash, Golang)

Working on monitoring solutions (New Relic, Grafana, Prometheus)

04.2017 - 07.2019

### **HSBC**

DevOps Engineer

Continuous Integration/Development (TeamCity, Ansible, Git, Pivotal Cloud Foundry), Bash/Python scripting
