MSC ETL DWH BI Senior Consultant
Czestochowa Metropolitan Area

Summary

Summary: An experienced ETL BI Consultant & dwh specialist with 15yrs exp. in IT (with over 8yrs in commerce ETL BI DWH) with wide range of BI solutions for customers.: Gates Foundation U.S., DFW Dallas Airport U.S., MuniServices U.S. Aubuchon U.S. Lucky Brand U.S., Lidl Europe, Alhilal Bank ME., Tesco UK, Cosmos Japan, Bayer BBS Europe, BWI Germany, DHL Europe, NSN Europe, Lloyds Pharmacy UK, RSA group CAN, ShoppersDrug Mart CAN, etc.

Education: B.S. ETL Expert, MicroStrategy 10.* Certified Consultant, M.S.C.\Bachelor (Computer Science)

ETL Skills: SSIS, Informatica, DataStage, Visual Studio

DWH Skills: Oracle, SQL Server, Big Data(Hadoop), Netezza, Teradata, Vertica, DB2

Industry EXP: Retail, Banking, Finance, Pharmacy, Logistics, Software, Workforce

Certifications: Oracle 11g Certification, MicroStrategy Certified (MCD), MicroStrategy Certified (MCE), MicroStrategy Certified (ADM), German A2/B1 Language Certification, MicroStrategy PowerUp 2017

Other Technical Skills: C# ,DHTML/XML, Perl, Sharepoint, SVN/Git

Special Skills: Strong ETL Developer, SQL/PL-SQL/T-SQL Expert

Experience

BWI GmbH

ETL Datastage Developer

October 2017 - Present (6 years 10 months)

Bonn, North Rhine-Westphalia, Germany

In BWI I'm working as a DataStage ETL developer. Through analysis of PL SQL code in source, Staging area, and Presentation area. Development is organized into Test, Int, PROD environments

My activities are converting most complex customer data sources into DataStage jobs.

INDUSTRY TYPE: Army/Resource, Ticket, Asset Management

- ETL modules: Designer, Director, Quality Stage
- Development jobs and workflows
- Data import/export to inhouse reporting RWH
- Oracle 11g/12c PL SQL and DB2 analysis

RSA

ETL SSIS CDC Developer

April 2017 - October 2017 (7 months)

Toronto, Ontario, Canada

In RSA I'm working as an SSIS\CDC Developer, and SQL Server 2014 Database Administrator, integrating data into Teradata target DB. Often searching for ETL bugs/workflow optimization and fixing technical issues. I proposed solution for Upsert strategy in SSIS, Sort transformation optimization and executed DEV, UAT, PRD SSIS environment migrations

INDUSTRY TYPE: Global Insurance Group

- SSIS/CDC ETL development
- SQL Server 2014 database admin,sql
- Teradata expert user; writing SQL analysis, creating tables, views and validating data
- Analysing data quality issues; writing automated scripts
- Fixing ETL mapping, sessions, and workflows bugs

Fox Corporation

ETL Informatica Developer

April 2016 - December 2016 (9 months)

Los Angeles, California, United States

In FOX Broadcasting Corporation I'm working as an Informatica 9.x Developer. Main ETL activities was to maintain and develop new mappings in Informatica for NAT GEO channel for daily data load, Data quality and customer support. I also optimized existing SQL Server scripts to meet performance requirements through using Indexes and incremental load methodologies.

INDUSTRY TYPE: TV Broadcasting

- Informatica ETL development
- Fixing ETL mappings, sessions, and workflows bugs

- Analysis of DQ issues for TV, VOD, HULU, Foxnow data

Diageo

ETL Datastage Developer

August 2016 - August 2016 (1 month)

London, England, United Kingdom

In Diageo I'm working as ETL datastage developer, and advising on dwh model. My activities were focused on early stages of data extract from sources through running extraction jobs scheduled automatically. I also designed staging area tables and build target tables from business report requirements. Some activities also includes detailed documentation.

INDUSTRY TYPE: Alcoholic Beverages, Retail

- ETL: Designer, Director, Quality Stage
- DataStage: Building jobs and workflows
- Analysis of dwh model

Shoppers Drug Mart

ETL SSIS Developer

October 2015 - August 2016 (11 months)

Toronto, Ontario, Canada

In Shoppers Drug Mart I'm working as an SSIS Developer, and Database Administrator, integrating 8 sources into MicroStrategy reporting system using SSIS ETL. Often searching for ETL bugs/workflow optimization and fixing technical issues. I proposed solution for Upsert strategy in SSIS, Sort transformation optimization and executed DEV, UAT, PRD SSIS environment migrations

INDUSTRY TYPE: Retail/Pharmaceutical SSIS ETL development

- SQL Server 2012 database admin, sql
- Analysing data quality issues
- Fixing ETL mapping, sessions, and workflows bugs

Lucky Brand

ETL SSIS Developer

July 2016 - July 2016 (1 month)

Vernon, New Jersey, United States

In Lucky Brand I'm working as a SSIS Developer, and Database Administrator, integrating several universes into MicroStrategy reporting system. Often searching for ETL bugs and fixing reporting/dat issues. I proposed solution for Slowly changing dimension in SSIS, and developed DEV vs PROD depoy

INDUSTRY TYPE: Retail

- SQL Server 2012 database admin,sql
- SSIS ETL development, best practices
- Analysing data quality issues
- Fixing ETL mapping, sessions, and workflows bugs

Lloyds Pharmacy

ETL Datastage Developer

January 2016 - March 2016 (3 months)

Coventry, England, United Kingdom

In Lloyds Pharmacy I'm working as an DataStage ETL data extract solution proposal and POC for building PDC algorithm within MicroStrategy tool Database developer/MicroStrategy Architect. I analysed and imported 3rd party data internally, and. I also did some ETL import to inhouse dwh

INDUSTRY TYPE: Retail/Pharmaceutical

- ETL: Designer, Director, Quality Stage
- DataStage: Building jobs and workflows
- Data import to inhouse reporting
- SQL Server 2012/Oracle dwh model development

Dallas Fort Worth International Airport (DFW)

ETL Informatica Developer

April 2015 - August 2015 (5 months)

Dallas, Texas, United States

In DFW Dallas Airport I'm working as an Informatica Developer, and Database Administrator, integrating several universes into MicroStrategy EDW system. Apart from regular ETL I'm also involved in designing and running sql script for Source, Staging, and Target tables. Often searching for ETL bugs and fixing reporting/dat issues.

INDUSTRY TYPE: Airport Services

- Informatica 9.0 ETL development
- Oracle Database Administrator
- Analysing data quality issues
- Fixing ETL mapping, sessions, and workflows bugs

Muniservices, LLC

ETL Pentaho Developer

February 2015 - May 2015 (4 months)

Fresno, California, United States

In MuniServices I'm working as an MicroStrategy Schema expert and Pentaho ETL developer. The MicroStrategy Platform was build on Cloud, and installed

locally. I also took big part in Reports/Documents/Dashboards development and introduced several user training sessions for MuniServices Senior BI staff.

INDUSTRY TYPE: Finance (Taxation Services)

- MicroStrategy Schema development
- Pentaho ETL development, loading Mockup Data
- MicroStrategy Reports/Dashboards development

MicroStrategy

2 months

ETL Datastage and MicroStrategy

April 2011 - April 2011 (1 month)

Warsaw, Mazowieckie, Poland

I've created a fully automatic ETL process in MySQL. All data was fetched from flat files (Excel files, filled manually by managers). The ETL process is fully incremental, after refreshing historical data, ETL loads only delta information to DWH. Minimum user interaction with the system avoids manual mistakes.

INDUSTRY TYPE: Workforce ETL system

- ETL development of fully automatic system to extract data from XLS files and load to MySQL database
- Remote Access of Job execution configuration
- Complete documentation, FAQ and instructions for users creation

ETL Pentaho PDI and MicroStrategy

March 2011 - March 2011 (1 month)

Warsaw, Mazowieckie, Poland

I've created fully educational workshop with Pentaho 4 PDI ETL tools in order to explain/teach new, existing employees on Pentaho features. Workshop contains basic and complex ETL exercises i.e. simple file/file, db/file loads, expressions, lookups, joins, filters, insert/update strategies, sorters, switch/router, normalizes, denormalizes, aggregation, sequence generator, workflow control

INDUSTRY TYPE: ETL Workshop

- Completed workshop for educational purposes

DHL Aviation

ETL Developer / System Architect / BI Technical Analyst

March 2007 - August 2008 (1 year 6 months)

Brussels, Brussels Region, Belgium

In DHL I've worked with Business Area Review system, for reporting purposes, directly used by management. I was responsible for system analysis, PL- SQL, ETL like transformations in Oracle DWH, source systems ETLs preparations, first line of user support, J2EE reporting applications maintenance and administration

INDUSTRY TYPE: Asset Management

- Supporting Oracle aviation DWH system
- QA, reference data issues resolving
- Participating in analysis changes DWH model
- Developing ETL logic (JDATA, Pentaho)
- J2EE application (report tool for users) development, troubleshooting
- On-demand modifications, configuration management
- First Line technical user support
- Serving as liaison between database admin, developers and end users
- Creating system schemas, data-flows, references
- Database model (Power Designer, CorelDraw, MS Visio), documentation creating

Nokia Siemens Networks

Software Integration Specialist

November 2006 - March 2007 (5 months)

Dolnośląskie, Poland

GSM/GPRS/EDGE platform bug testing

Regression and User Acceptance test

Documentation

Technologies: Java\J2EE, GSM/GPRS

Education

Politechnika Częstochowska

Master's degree, Computer Science: AI and Multimedia

Techniques · (2002 - 2007)

Techniczne Zakłady Naukowe Czestochowa

Engineer's degree, Information Technology · (1997 - 2002)
