Podsumowanie

I am an attorney-at-law who has completed the judge training; I have over 10 years of experience in corporate law. In this time, I successfully incorporated several hundred companies, as well as restructured and liquidated several dozen.

Since 2010 I provide comprehensive legal advisory services for enterprises of various industries (incl. construction, furniture, transport, railway, real property rental, as well as baking and confectionery), from start-ups to companies with longstanding experience. I specialise in corporate, commercial and civil law.

I support clients in business negotiations, prepare and review agreements, conduct court proceedings in commercial and labour law cases. I monitor amendments in legislation on an ongoing basis and adapt internal regulations of companies to the changing legal environment.

I am business-oriented, which is why I offer my clients such solutions as are practical and consistent with the law. In each case, I try to read into the clients' situation in detail and learn about the specific nature of the market they operate on, so that they can make an informed business decision and have ensured legal certainty.
