

EXPERIENCE

Power Platform Developer

TopNotch Technology

📅 01/2022 - 09/2023 📍 Remotely | Dubai, UAE

- Working with the Power Platform, in particular PowerApps (Canvas Apps, Model-Driven Apps) and Power Automate.
- Knowledge of UX and UI issues to the extent that allows you to create a PowerApps Canvas application with a modern look.
- Testing implemented applications to ensure that they are optimally created and conform to high standards.
- Experience with SharePoint, SQL and Dataverse.
- Experience in working in the Agile approach.
- Administration and maintenance of Microsoft Power Platform environments.

Web Developer Intern

Abdul Aziz Al Ghurair School for Advanced Computing

📅 03/2021 - 10/2021 📍 Amman, Jordan

- Front-end development.
- Back-end development.
- Developing and maintaining web applications.
- Database management.
- Testing and debugging.
- Version control and collaboration.

Structural Engineer Trainee

Hasan Abu Assi

📅 08/2020 - 11/2020 📍 Irbid, Jordan

- **CAD Proficiency:** Utilized Computer-Aided Design (CAD) software to create detailed structural drawings and schematics, enhancing accuracy in documentation and communication.
- **Blueprint Review:** Reviewed architectural and engineering blueprints to identify integration points and ensure alignment of structural elements with overall project design.
- **Project Documentation:** Assisted in preparing comprehensive project reports, including progress updates, design modifications, and technical documentation, maintaining clear and organized records.

Site Engineer

Fathe Al-Nimer

📅 11/2019 - 02/2020 📍 Irbid, Jordan

- **Project Leadership:** Managed and supervised finishing works for a school construction project, ensuring adherence to quality standards and project timelines.
- **Quality Control:** Conducted regular inspections to verify that finishing materials and techniques met the required standards, resulting in a flawless aesthetic appeal and functional performance.
- **Coordination:** Collaborated closely with architects, contractors, subcontractors, and project stakeholders to synchronize efforts, resolve issues, and streamline project execution.
- **Client Communication:** Regularly interfaced with the client to provide updates on project progress, address concerns, and ensure that their expectations were met or exceeded.
