Introduction to Python

Tech for Everyone

Summary

I'm a Data Scientist and Python Developer based here in Warsaw, Poland. My journey in data science has been quite dynamic, with a solid foundation in statistical analysis, data visualization, and business analytics. I thrive on leveraging tools like Python, IBM SPSS, SQL, and others to make sense of data and help businesses make informed decisions.

Currently, I'm putting my skills to work at 24betting as a Data Entry Assistant. It's a role that involves handling large datasets and automating tasks to streamline operations. Before this, I cut my teeth as a Data Analytics Trainee at Inet Install sp and gained valuable insights as a Business Analytics Intern at Sensify Spain S.L., particularly in the realm of renewable energy data analysis and optimizing business processes in banking area.

My academic background includes a Bachelor's degree in Sociology from Warsaw University of Life Sciences, and I'm currently pursuing a Master's degree in Computer Science at the University of Lodz. Being fluent in multiple languages, including Russian, Polish and English, has also been a great asset, allowing me to effectively collaborate in diverse, multicultural environments.

I'm passionate about transforming raw data into actionable insights and continuously seek new challenges to further develop my analytical capabilities.

Experience

24betting

Data Entry Assistant

November 2023 - Present (10 months)

Conduct statistical analysis and manage large datasets to support business decisions.

Utilize IBM SPSS, Python, and MS Excel for data visualization and reporting.
Develop and automate data processing tasks to improve efficiency and accuracy.
Collaborate with cross-functional teams to provide actionable insights based on data analysis.

Inet Install sp

Data Analytics Trainee

May 2023 - December 2023 (8 months)

Warsaw, Mazowieckie, Poland

- Assisted in collecting data from various sources related to renewable energy projects and performed data cleaning tasks to ensure dataset readiness.
- Conducted basic exploratory data analysis (EDA) using Excel to identify trends and patterns in renewable energy data.
- Created summary statistics and simple visualizations to present initial findings on energy production and consumption.
- Assisted in preparing regular reports to track key performance indicators (KPIs) for renewable energy projects and supported the creation of PowerPoint presentations summarizing data insights.
- Created basic charts and graphs in Excel to visualize renewable energy data and supported the development of dashboards in Tableau under supervision.
- Assisted with basic SQL queries to extract data from renewable energy databases and helped maintain data documentation.
- Worked closely with team members to understand data requirements and deliver necessary data insights for renewable energy initiatives.
- Gained hands-on experience with data analysis tools like Excel, SQL, and Tableau through guided tasks.
- Assisted in ad-hoc data analysis tasks related to renewable energy and provided support in preparing datasets for specific projects or presentations.

Sensify Spain S.L.

Business Analytics intern

August 2022 - May 2023 (10 months)

Madrid, Community of Madrid, Spain

- Collected and analyzed data from various sources to create monthly reports, utilized Tableau and Power BI for data visualization.
- Conducted market research and competitive analysis, identifying key trends and growth opportunities.
- Analyzed and optimized business processes.

- Processed large volumes of data using SQL and SAS, created and managed databases.
- Developed forecasting models using statistical methods with Python.
- Supported projects for the implementation of analytical solutions, collaborated with other departments to gather requirements.
- Prepared presentations and reports to present analytical findings to management, participated in meetings.
- Created and maintained interactive dashboards for monitoring key business metrics.

Education

University of Lodz

Master's degree, Computer Science · (October 2023 - June 2025)

Szkoła Główna Gospodarstwa Wiejskiego w Warszawie

Bachelor's degree, Sociology · (October 2020 - September 2023)
