

Interior design of commercial and private objects, concept creation, restaurants and bars interior design, full circle of projecting and implementation, author support

Summary

As an lead interior designer at Mood Works bureau, I specialize in designing and implementing commercial and private projects. But favorite design direction is HORECA projects, such as restaurants, cafes, and bars. With over 15 years of experience in this field, I have successfully delivered more than 50+ objects of various themes, styles, and budgets, creating unique and memorable experiences for the clients and their customers.

My core competencies include creating concepts, generating ideas, researching trends, completing design projects, managing the entire project cycle, overseeing the construction work, and organizing the project team. I am passionate about transforming spaces into functional and aesthetically pleasing environments that reflect the client's vision and brand identity. I enjoy working with diverse and talented professionals, and I always strive to deliver high-quality results that exceed expectations.
