Competent Leader

## Podsumowanie

I am a Power Platform Developer experienced in Power Apps (mostly Model-Driven + JavaScript customizations), Power Automate, Dataverse, and SharePoint Online.

I perceive myself as a solution oriented, logical and creative person with highly developed interpersonal skills, who values honest, efficient and open communication. In my everyday work I try to follow the clean code principles, taking care of code/solution readability and quality.

My background is in business psychology and consumer behavior.

I have experience in public speaking gained during a 4 years journey in Toastmasters International and 8 years of practicing improvisation (I also conducted 200+ hours of workshops in that field).
