I am an experienced employee with a high level of soft skills, high work culture and communication skills. I'm specialized in full-stack apps with use of React, Next or VanillaJS on front-end and Node frameworks like Express and Nest on back-end. My strengths are reliability, commitment, wide stack view and excellent knowledge of business processes, thanks to which the web solutions provided by me are practical and efficient.

TECHNICAL EXPERIENCE

BACK-END

- **3 years** of experience in **Node** environment, building **REST APIs** and backend-aps
- **Typescript** or Javascript
- **OOP,** KISS, DRY, SOLID
- Used: **Express, Nestjs, MongoDB, Mongoose, PostgreSQL, TypeORM, Seqelize, GraphQL, SocketIO, ExpressValidator, ClassValidator, PUG, JWT, Multer, Nodemailer, Mjml, Axios, Jest, Mocha/Chai, Docker and more**
- Integrations with: **AWS, Firebase, AuthO, Google, GraphCMS, Discord, Inpost, Przelewy24** and others

FRONT-END

- **3 years** of experience in JavaScript and **React** ecosystem; **HTML, CSS, SASS** and more
- Server Side Rendering, Static Site Generation,
- Incremental Static Regeneration, Single Page Apps, RWD, SEO
- Used: **VanillaJS, HTML, CSS, SASS, React, Nextjs, Redux, SWR, ReactRouter, SocketIO, Formik, StyledComponents, MaterialUI, Bootstrap, Bulma, Tailwindcss, GSAP, Swiper, Lightbox, Figma** and others

I use Typescript or Javascript, like Object Oriented Programming. I test my code, know and try to apply design patterns. I use VSCode, Git, Docker, Husky and other common tools.

PROFESSIONAL EXPERIENCE

2020 - now	**DEVDEFER development**	**Full-stack Developer,** responsible for: ■ Creating back-end of applications, APIs with use of Node/Express/Nest and tools ❘ ■ Connecting apps with databases and cloud solutions (AWS) ❘ ■ Designing a business logic of apps ❘ ■ Designing and creating full-stack apps with the use of Next.js, React, Redux ❘ ■ Basic security of backend and frontend ❘ ■ Production and deployment ❘ ■ Unit tests ❘ ■ Integrating with external APIs (Google, Discord, AuthO)
2010 - now	**ABS.A.**	**Product Manager, Project Manager,** responsible for: ■ outside of duties of Product Manager, additional projects with IT Department focused on developing Web CRM Sales Tools ❘ ■ Managing the implementation of tender purchasing application ❘ ■ responsible for a full-stack app for sales managing and monitoring ❘ ■ Implementing of work-processes automation

REST API for CMS/CRM in Express **|** integration with AWS for static assets **|** JWT for auth **|** sharp for dynamic images processing **|** integration with MongoDB by Mongoose **|** Mjml for e-mail templates **|** Nodemailer for mail system **|** CRM front-end in React **|**

Nextjs for front **|** RWD design **|** multi-language **|** Sites Static Generated with ISR **|** SWR for dynamic data revalidation **|** form with Formik **|** GSAP for animations **|** custom dynamic filters **|** custom infinite scroll **|** Styled Components and Material UI used ...

CRM + CMS for SHOUT ABOUT
full-stack apps, e-commerce

"SHOUT ABOUT Warsaw"

web-portal, e-commerce

REST API for shop and shop-panel in Express **|** integration with AWS **|** integration with Przelewy24 and Inpost **|** JWT for auth **|** MongoDB, Mongoose used for DB **|** Nodemailer **|** e-shop custom logic from scratch with baskets management, products management etc.

Front in React and Redux **|** forms with Formik **|** RWD design **|** custom pagination **|** Axios for data fetch **|** GSAP anims **|** Styled Components and MaterialUI used

shop engine, shop panel
full-stack, e-commerce

"Pudlowska shop"
shop front, e-commerce

REST API for CRM in Nestjs **|** PostgreSQL DB with TypeORM **|** Typescript **|** OOP **|** AuthO for auth with roles **|** data upload from csv **|** streams **|** integration with external accounting software **|** Class validator **|** views in React **|** Axios for data featch **|** Tailwindcss **|**

CRM, automation
full-stack

EDUCATION

2022 - now	**Local Host Academy**	One 2 One mentoring **|** also work in a team supervised by an experienced developer **|** real-live projects
2019 - now	**Sekuritum, Eduweb, Udemy**	Training and education in the field of up-to-date front-end and back - end technologies, security, and databases **|** Among others, paid training from Sekuritum: "Frontend and web application security" **|** a few thousand hours of study and many educational projects
2010	**CRSE**	Project Management **|** certification IPMA LevelD
2000 - 2005	**Wroclaw University of Economics and Business**	Economy

SOFT SKILLS

- Communication
- Collaboration and teamwork
- Time management
- Adaptability
- Work under time pressure
- Stubbornness
